Two Bear CWMU Description

The Two Bear CWMU is located just south of the Idaho - Utah state-line with State Highway 150 forming much of the east boundary. The high elevation is around **9100 feet**. The Hayden Fork (7800 feet to 8400 feet) and the West Fork (7800 feet to 9000 feet) of the Bear River cut the Unit on the east. Two major drainages flowing into the Bear River and its forks are Mill City Creek (8400 feet to 9200 feet) and Deer Creek (8300 feet to 9100 feet). On the west side of the Unit, Yellow Creek, ranging from **7700 feet** to 8800 feet, cuts the unit.

The Two Bear Cooperative Wildlife Management Unit (CWMU) land cover is dominated by two (2) types in almost equal proportions, Rocky Mountain **Aspen Forest and Woodland** (22) and Inter-Mountain Basins Montane **Sagebrush Steppe** (62). Rocky Mountain Subalpine-Montane **Riparian Shrubland** (77) is also a prominent land cover type on the Unit. There is also a large patch of Rocky Mountain **Lodgepole Pine Forest** (29) in the southeast corner that contributes to the land cover mix.
